### MATTHEW GONIWE SCHOOL OF LEADERSHIP AND GOVERNANCE (MGSLG)

Request for Proposals: MGSLG is seeking the services of a qualified and experienced Business Enterprise Consultant to our institution in enhancing enterprise external partnerships and revenue generation strategies. The consultant will focus on identifying opportunities, implementing external revenue enhancement initiatives, providing recommendations to achieve Diverse and Multiple Revenue Streams for Growth and Sustainability.

### **1. INTRODUCTION**

The Matthew Goniwe School of Leadership and Governance (MGSLG) is a development institute that provides learning programmes in the education sector to enable quality teaching and learning in schools. Its vision is" To be the Leading Development Institute in the Education Sector'. MGSLG is a registered Section 21 Non-Profit Company. Established to research, develop and deliver cutting edge capacity building programmes using ICT in the areas of school management & leadership, school governance and teacher development for capacity building of School Management Teams (SMT), School Governing Bodies (SGB), Representative Council of Learners (RCL), Teachers and other stakeholders in the public education sector within the Gauteng Province. The institution is located in two main campuses, Vrededorp, which serves as the Head Office and Bedoni, which is distinguished as the ICT Training Centre.

The focus of our work is in areas of:

- Professional growth of educators and school governors.
- School leadership and management development.
- improving education practice through research.
- Capacity-building initiatives relating to new education policy initiatives and teacher-up- skilling.

Our mandate is fully aligned to the vision and mission of the Gauteng Department of Education (GDE), "to ensure every learner feels valued and inspired in our innovative education system." In order to attain the afore-stated vision, the GDE has set out five strategic goals and supporting priorities all aimed at transforming the education landscape and targeting the achievement of quality teaching and learning outcomes by enhancing the skill and competencies of educators ,school management teams as well school governing authorities. These notable policy and administrative reforms by GDE also include curriculum reviews, resource redistribution as well as ICT induced sector wide changes.

The MGSLG had long desired and contemplated the expansion of its campus into eight other provincial states in order to establish a national footprint and profile. Founded and established by GDE over 17 years ago, MGSLG faces profound development challenges that compels an undertaking of a comprehensive review and repositioning to be able to re-classify into a type of institutional enterprise that would be well suited to meet the ever-changing demands of educators and learners in this ICT demand driven public education landscape.

# 2. PURPOSE

MGSLG is and educational institution committed to providing high quality support education and services. In an evolving educational landscape, it is imperative to explore innovative ways to increase diverse and multiple revenue streams while maintaining our commitment to academic excellence.

The organization needs to research the programmes which will add value in the education sector and related sectors through innovation and ICT enhanced skills development initiatives for the entire country.

However due to non-growth of our macroeconomics' fiscal budget, grant transfers and other private donor revenue has been on the decline over the past consecutive five years. This observation and many other internal and external factors present manifold challenges for section 21, Non-Profit Companies whose primary funding source is the GDE.

It is against this background that an Enterprise Business Consultant is purposed and commissioned to support all business development initiatives, diverse revenue streams for institutional growth and sustainability.

The primary purpose and importance of an Enterprise business support consultant study is based on organizational desire to "get it right" before committing resources, time, or budget. A feasibility study might uncover new ideas that could completely change a project's scope. It's best to make these determinations in advance. Conducting a feasibility study is always beneficial to the project as it gives all critical stakeholders a clear picture of the Board approved repositioning plan

# 27. CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
